**EDITOR'S LETTER** "See you in September" was the refrain when people went away for the summer. It was also the title of a popular song when I was in high school.

Today's texting, Skype, play dates and organized sports make the phrase seem dated. However, the memory of the song still resonates for me.

September seems an ideal place for the year to begin, as our lives often take a new direction at that time. New school terms, ambitious goals for the company to achieve, and harvesting the crops all herald the "get-going" attitude of September.

For knitters, it means it's time to consider projects with woolly themes, and perhaps, knitted items for Christmas gifting. In this issue, we offer the best from talented designers whose names you'll recognize, as well as newcomers we think you're going to love.

As a result of readers' requests, we're offering more easy-knit items mixed with the challenging projects desired by experienced knitters. Don't forget to write with your opinions.

May September's song be a reminder for you of all the best a new start can bring!

## CREATIVE LETTERS

### Our readers love: our vest, cables, printed or digital issues!

#### Our Most-Loved Vest

When I saw the cover of the September 2008 *Creative Knitting*, I knew this design was for me! Mine was loaded with Knitter's wanted weight yarn from Plymouth Yarn Co. I have enjoyed wearing this versatile vest immensely!

Erna Robbins, [ernarobbins@aol.com](mailto:ernarobbins@aol.com)

Andrea Knight-Bowman's vest has been one of our most-popular patterns ever! You can download this pattern directly to your computer—no waiting! Go to [e-PatternsCentral.com](http://e-PatternsCentral.com) for details.

#### She Prefers Print Magazine

I love *Creative Knitting* magazine; I love the anticipation of going to the bookstore to get my new copy. I love sitting in the car and flipping through it immediately, just like a child with a new toy. I love sitting down and flipping through the pages later that night. As much as the idea of digital is good, for me it's just not the same.

I love my computer too, but I love my print version more. Thanks for the best magazine EVER!

Thanks, we're happy to please!

#### Young Knitter Succeeds!

My name is Rydney, I am 11 years old and have been knitting since I was 8. In your July 2008 issue, I fell in love with the sweater on page 14, Cabled-Edge Top. It was my first sweater, but I thought I just had to make it! I started in August, and finished in early November. It didn't fit me quite right in the back, so I added a mesh by knitting two long ties, which looked great! I wear it all the time and am thrilled with the results. Keep up the great patterns!

Rydney, [rydney11@yahoo.com](mailto:rydney11@yahoo.com)

Designer Melissa Langmuir was thrilled you chose her pattern to knit. Kudos on your beautiful sweater! —Editor

CLEAN LINES AND SIMPLE STITCHES BLEND IN A KIMONO-STYLE COAT WITH EXTRA FLAIR!

# Stitch Markers Are Your Friends

ONE TINY NOTION CAN MAKE SUCH A DIFFERENCE!

As new knitters, we were handed these fabulous tools that included, of course, the needles and yarn. Also usually included were a tapestry needle, a tape measure and stitch markers. The tapestry needle and tape measure are easy, but what to do with the stitch markers? Then, someone took pity on us and explained that stitch markers are like "training wheels" to help mark a place in your knitting for easy reference, most often when working in rounds.

Then, we became more confident and decided that we didn't need those training wheels. Who needs those little round things to help us keep our place? We can read our knitting! But this simple, little stitch marker can be used in so many more ways than just at the beginning of the round.

Use your stitch markers to help keep track of the number of stitches being cast on (Photo 1). Place a marker every 10 stitches. It is so much easier to count 10 stitches than to try to count over 100 stitches and continually be interrupted. Before

you cast on, count the number of markers you'll need. After placing a marker every 10 stitches and using up all the designated markers, you know you're at the total number of stitches needed.

On some patterns it is difficult to see the difference between the right side and the wrong side. Place a locking stitch marker onto one of the finished stitches on the right side. This way you'll always know which side is which. You can move the marker up the fabric as it continues to grow.

On the first row of the underarm bind-off, place a locking stitch marker on one of the stitches toward the center of the piece (Photo 2). It is easier to measure your work from the needle to the stitch marker when it's in the center than trying to measure over the bound-off stitches.

Then, as the sleeve grows, you'll easily be able to see how many increases have been worked and if the same number of increases have been worked on each side (Photo 3).

Stitch markers may also be used to separate stitch patterns repeats. This is especially helpful when working lace.

Short-row shaping is easier with the help of markers. After the wrap and turn, work the stitches to the next wrap-and-turn location, and then place the marker. On the next short row, just work to the marker.

Locking stitch markers may also be used as small stitch holders, to catch a dropped stitch, or to join finished pieces together.

Whether your stitch marker is a beautifully beaded work of art or simply a small piece of wrap yarn, it can be one of your best friends when it comes to making your knitting more enjoyable. ■

When working the increases for sleeves, place a marker between the first increase stitch and the original stitch on each side of the sleeve.

**Note:** There will be 11 sts on each side of the center seam; notice the gap on each side. On each following row, you will work 10A or 27/28g, closing the gap, and then work 1 more st before turning. Continue working in this way until all the sts at the sides have been worked—18 sts each. You will end with a 40 row.

**Abstract**

Turn heel flap 90 degrees clockwise. With same needle, pick up and knit 1 st in each slipped st along heel flap. If you wish, pick up an additional st at junction of heel and instep (1 st or 17 sts). Place a safety pin on these sts, indicating kn. Combine instep sts onto 1 needle; work in established pat across these 32 sts (40). With last needle, beg with a junction st again if desired, then pick up and knit 1 st in each slipped st along heel flap (40). With same needle, knit 2 sts from sts rem from heel. Slip rem 9 sts onto Rl. Both ends now lie at bottom of heel.

**Abstract:** The purpose of this study was to determine the effect of a 12-week, low-intensity, supervised walking program on the physical and psychological health of sedentary, middle-aged women. The study was a randomized, controlled trial. The subjects were 40 sedentary, middle-aged women who were randomly assigned to either a supervised walking program or a control group. The walking program consisted of 12 weeks of supervised walking, 3 times per week, for 30 minutes per session. The control group consisted of 20 women who did not participate in the walking program. The subjects were assessed at baseline and at 12 weeks for physical and psychological health. The walking program had a significant positive effect on the physical and psychological health of the subjects. The walking program significantly improved the subjects' physical health, as measured by the 6-minute walk test, the 12-minute walk test, and the 400-meter walk test. The walking program also significantly improved the subjects' psychological health, as measured by the Beck Depression Inventory, the State-Trait Anxiety Inventory, and the Zung Depression Index. The walking program had no significant effect on the subjects' weight, blood pressure, or cholesterol levels. The results of this study suggest that a 12-week, low-intensity, supervised walking program can improve the physical and psychological health of sedentary, middle-aged women.

## Pattern Notes

Body of vest is worked from neck to lower edge. Circular needles are used to accommodate stitches; do not join. Work back and forth in rows.

Sleeves are worked in rounds on a circular needle.

Notes are included to modify body and sleeves for a custom fit. If you choose a longer sleeve option and/or a smaller neck opening, more yarn is needed.

A chart is provided for those preferring to work Faux Cable pattern stitch from a chart. Row counter is helpful for keeping track of pattern rows while working increases and short row.

Change to larger circular needle as necessary.

Clip all stitches purpose.

It is suggested that the separating zipper be purchased after completing the vest.

Work Row 6 of yoke hiding wraps.

Continue working yoke inc rows (beg with Row 7), with no further short-row shaping until piece measures 2 inches less than desired sleeve length, ending with a RS row. Marked shows length of 1½ inches (past the shoulder edge).

**Note:** Slip sts onto waste yarn and try on vest. If you want to make your sleeves longer, do so at this point.

## Separate sleeves & body

**Next row (WS):** Work in pat to first marker; change to smaller needle, SM, purl to next marker, Wt; with larger needle, purl to marker, Wt; with 2nd smaller needle, Wt, purl to next marker, Wt, with larger circular needle, work in pat to end.

**Note:** The sleeves will knit on hold on the smaller circular until finished separately later.

## Left front

**Next row (RS inc row):** Sl 1, k2, p2, work Faux Cable pat, p2, knit to last 3 sts on left front, M1L, k1, M1L, k1.

Turn, placing back and right front sts on holder or waste yarn.

**Next row:** Sl 1, purl to last 21 sts, k2, work Faux Cable pat, k2, p2.

Before turning work, move far right: at (slipped st) from body needle to sleeve needle.

**NOTE:** Slip at its sleeve needle point from the back of the st to knot it. Pins are now on the armhole edge. Rep last 2 rows working inc and moving it as before until front, excluding 21-st center front border, has 22 (24, 42, 44, 52, 58) sts, ending with a WS row. (See Custom Fit Notes below to adjust length at this point.) Place the rib under sleeve on the holder.

**Custom Fit Notes:** The size of the vest depends on how many inc rows are worked. Try on the vest to see how many inc are needed. Vest can be modified up to the point of joining at the underarm.

If the indicated number of stitches is reached before the desired length, eliminate the MTR and work additional rows for a longer area before joining. Be sure to note changes so that you make the same changes on the back and note how.

If a larger or smaller size vest is desired for the body of the vest, select the appropriate number of sq. ft. for that size.

**Final row (RS) knit row:** k1, M1L, k1, M1R, knit to last 3 sts on back, k2, k1 M1R, k1.

Before turning work, move the right end (clipped end) from body needle to sleeve needle, slipping as for right hand.

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses increased with the number of trials. The number of correct responses was significantly higher than the number of incorrect responses for all trial numbers.

Before turning, move far right at  
flipped st) from body needle to  
slowe needle.

Step last 2 rows until back has 86 sts, 110, 124, 132, 140 sts, ending with a WS row. (Make any additional changes in length as for front at this point.) Place sts on waste yarn or holder.
